Description	<p>Azad College of Pharmacy was organized by the Department of Training and Placement on Creativity with Passion Leads to Success by Gillete India on 16-07-2022 by Mr. Kishore Srinivasa at the Seminar hall. The session started at 10:00 AM by the speaker discussed on the Creativity is ever more important in today's connection economy, because it is the outcome. As the world continues to race toward innovation, faster, cheaper, and quicker, are what distinguishes us from the crowd in terms of individual creative contribution. The more we share and create, the more we find out how valuable this concept is. Creativity cannot be outsourced; it must be cultivated, challenged, and inspired by human curiosity.</p> <p>He explained about the notion that everyone has the potential to be creative doesn't effectively increase competition and make it harder to be recognized as a professional creative industries practitioner. Even though everyone is in some way creative or imaginative does not mean that they will be successful. This is because of three main reasons. Some people have greater ability at being creative and imaginative than others. Some people don't have the time or resources necessary to reach their creative potential. And others simply think that creativity is not something that they can make a living from and therefore don't embrace or develop their imagination.</p> <p>Totally 40 students have attended the session and speaker clarified their doubts.</p>
